Part II  Organizational Action

Attach additional statements if needed. See back of form for additional questions.

14  Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action. During its fiscal year ending 07/31/17, Fidelity Income Fund: Fidelity GNMA Fund (the "Fund"), declared daily income distributions to its shareholders, which were paid monthly. The Fund has determined that its earnings and profits for its fiscal year ending 07/31/17 were insufficient to characterize all of those distributions as dividends under IRC Section 301(c). As a result, 4.3763% of the distributions paid from February 2017 through July 2017 have been characterized as return of capital.

15  Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis. 4.3763% of each distribution paid from February 2017 through July 2017 with respect to a share of the Fund is treated as non-taxable return of capital and will reduce a shareholder's adjusted tax basis in that share. To the extent the return of capital paid with respect to a share of the Fund exceeds the shareholder's adjusted tax basis in that share, such excess will be recognized as a capital gain. The per share amount of each distribution that was paid from February 2017 through July 2017 with respect to a share that was held on each day of the preceding month (and thus received all of the daily-declared income distributions for that month) is shown on the attached schedule, as is the per share amount of non-taxable return of capital with respect to such a share.

16  Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates. The adjusted tax basis of each of a shareholder's shares of the Fund is decreased by the return of capital (as described in box 15 above) received with respect to that share. To the extent the return of capital exceeds a shareholder's adjusted tax basis in a Fund share, such excess would be recognized as capital gain from the sale or exchange of property.
**Part II  Organizational Action (continued)**

17 List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based ▶ IRC Section 301(c), Section 316(a), Section 316(b)(4), Section 852(c).

18 Can any resulting loss be recognized? ▶ Not applicable.

19 Provide any other information necessary to implement the adjustment, such as the reportable tax year ▶ The information provided above will be reflected on the shareholders' 2017 Form 1099-DIV.

Under penalties of perjury, I declare that I have examined this return, including accompanying schedules and statements, and to the best of my knowledge and belief, it is true, correct, and complete.
