CUT EXPENSES FOR THE UNIQUE COLLEGE INVESTING PLAN INDEX PORTFOLIOS
BY UP TO 52 PERCENT**

UNIQUE Plan Index Portfolios among most affordable in 529 industry

BOSTON, July 6, 2016 – [Fidelity Investments](#)® and the state of New Hampshire have announced a reduction in total asset-based fees for the [UNIQUE College Investing Plan](#) Index Portfolios. Fees will now range from 0.11 percent to 0.20 percent, depending on the investment portfolio. This 30-52 percent decrease makes the New Hampshire plan Index Portfolio expenses among the very lowest in the 529 college savings plan industry.

This reduction is a result of [recent enhancements](#) made to Fidelity’s overall index fund line-up, now providing UNIQUE College Investing Plan Index Portfolios access to lower priced share classes for underlying mutual funds, as well as a drop in total net expenses on those underlying funds.

“We recognize that parents are working hard to save for college, and lower fees mean more of our customers’ money can be invested directly toward their children’s education,” said Keith Bernhardt, vice president of college planning and retirement products at Fidelity. “Fidelity is committed to providing a robust menu of investment options that offer great value alongside trusted planning guidance, online tools and educational resources. This reduction can help families with UNIQUE College Investing Plan accounts feel confident that they are on track to meet their savings goals.”

Total expenses for the 529 Index Portfolios, including program management and state fees, now range from 0.11 percent to 0.20 percent of assets, down from 0.19 percent to 0.29 percent. The UNIQUE College Investing Plan continues to have no annual account fee or low-balance fee.

Fidelity Study Finds More New Hampshire Families Utilizing 529 Plans

[Fidelity’s annual College Savings Indicator Study](#)¹ finds that 65 percent of New Hampshire families have started saving for college, up from 53 percent when the study began in 2007. But keeping up with the rising cost of college costs remains a challenge, with the typical New Hampshire family currently on track to cover just 34 percent of their college funding goals by the time their child graduates from high school.

While parents are still behind when it comes to saving to meet their college goals, the 9th annual study found a number of positive steps being taken. Fifty-four percent of New Hampshire families report having a financial plan in place to help reach their college goals. Use of 529 college savings plans is continues to grow (29 percent), increasing five percent from last year, and 92 percent of 529 plan owners in New Hampshire say they have either increased their savings or continued to save at the same rate over the past 12 months.

“The best step a family can take is to start saving early and regularly,” said Bernhardt. “Contributions add up over time – even in small amounts – and saving in a dedicated account, like a tax-advantaged 529 college savings plan, can make a big difference when it comes time to pay for college expenses.”
