Free commission offer applies to online purchases of select iShares ETFs in a Fidelity brokerage account. The sale of ETFs is subject to an activity assessment fee (from \$0.01 to \$0.03 per \$1,000 of principal).

ETFs are subject to market fluctuation and the risks of their underlying investments. ETFs are subject to management fees and other expenses. Unlike mutual funds, ETF shares are bought and sold at market price, which may be higher or lower than their NAV, and are not individually redeemed from the fund.

Before investing in any exchange-traded fund, you should consider its investment objectives, risks, charges, and expenses. Contact Fidelity for a prospectus, offering circular or, if available, a summary prospectus containing this information. Read it carefully.
