

IMPORTANT TAX INFORMATION

2014 Percentage of Income from U.S. Government Securities

Information for state tax reporting

We are sending this information to help you prepare your state income tax return. If you owned shares of any of the Fidelity funds listed in the table on the following pages during 2014, then a portion of the dividends you earned may be exempt from your state's income or investment tax. Most states exempt the dividend income derived from a fund's investments in U.S. government securities.

To determine the portion of dividends that may be exempt from state tax, in your 2014 Tax Reporting Statement, multiply the "total ordinary dividends" amount for each applicable fund reported in column 1a of Form 1099-DIV by the percentage listed in the table on the following pages of this letter.

The following example shows how an investor who earned \$1,000 in ordinary dividends from Fidelity® Puritan® Fund would calculate the portion of ordinary dividends that may be exempt from state income or investment tax.

| Fidelity® Puritan® Fund total ordinary dividends (from Form 1099-DIV, column 1a) | | Percentage of eligible income from U.S. government securities (from table) | | Portion of total ordinary dividends that may be state tax-exempt |
|---|---|---|---|--|
| \$1,000.00 | x | 1.23% | = | \$12.30 |

In this example, \$12.30 may be exempt from state tax.

California, Connecticut, and New York exempt dividend income only when a mutual fund has met a certain minimum investment in U.S. government securities. On the reverse side you will notice funds marked with an asterisk (*). These funds did not meet the minimum investment in U.S. government securities required to exempt the distribution from tax in California, Connecticut, and New York.

Your state tax return will contain specific instructions for reporting dividends. You may also wish to consult your tax advisor, who is most familiar with your circumstances and the laws of your home state.
