Effect on Basis

In General. Each shareholder has an aggregate basis in Acquiring Fund shares received in the merger equal to the aggregate basis of that shareholder's Acquired Fund shares surrendered in the merger.

Average Basis Shareholders. For a shareholder using the average basis method, his/her basis immediately following the merger in a particular Acquiring Fund share received in the merger equals his/her aggregate basis in all Acquiring Fund shares held immediately following the merger (including the basis carried over from the Acquired Fund shares surrendered in the merger) divided by his/her total number of Acquiring Fund shares owned.

Non-Average Basis Shareholders.

For a shareholder who does not use the average basis method but had the same basis in each of his/her Acquired Fund shares immediately prior to the merger (i.e., because his/her Acquired Fund shares were purchased at a single price in a single transaction), the basis of each Acquiring Fund share received is equal to 46.957572% of the basis of each Acquired Fund share surrendered.

A shareholder who did not have the same basis in each of his/her Acquired Fund shares determines the basis of each of his/her Acquiring Fund shares received in accordance with Treas. Reg. section 1.358-2.

Shareholders should consult IRS Publication 550 and their tax advisors for more information.
