2009 Information for Nonresident Alien (NRA) Fidelity Mutual Fund Shareholders

Dear Fidelity Investor:

As an NRA shareholder, you may be entitled to claim a refund by filing IRS Form 1040-NR for the U.S. federal income tax withheld from your mutual fund distributions that were attributable to "interest-related dividends" or to "short-term capital gains dividends." A shareholder who is not a citizen or resident of the United States (an "NRA shareholder") is exempt from U.S. federal income tax on interest-related dividends and short-term capital gain dividends declared by a U.S. mutual fund. This exemption is effective for distributions in mutual fund taxable years beginning before January 1, 2010. The information in this letter, together with distribution details available in your Fidelity monthly or quarterly Investment Reports, may help you determine if you are eligible for a refund of U.S. federal income tax withheld on certain distributions from your Fidelity mutual funds. Fidelity Funds account and Fidelity Portfolio Advisory Service® customers may alternatively consult their 2009 year-end Investment Report for their Fidelity mutual fund distribution details. For further information, see IRS Publication 519, *U.S. Tax Guide for Aliens*. Consult your tax advisor, who is most familiar with your individual tax situation, on how to use the information in this letter.

Your 2009 monthly or quarterly Investment Reports give detailed lists of all the distributions you received for the period covered by each Investment Report, as well as the amount withheld from each distribution. For information concerning distributions from mutual funds other than Fidelity funds you may own, please contact the appropriate fund company directly. The table on the pages that follow provides the percentage of the withholding on distributions that qualified as interest-related dividends or short-term capital gain dividends from each of your Fidelity mutual funds.

Example

Distribution type (from table)	Total U.S. federal income tax withheld from 2009 Fidelity Asset Manager® 30% distributions (from monthly or quarterly Investment Reports)		Percentage of tax withheld, attributable to interest-related or short-term capital gain-related dividends (from table)	=	Amount of U.S. income tax withheld, potentially eligible for a refund from U.S. federal income tax
Dividends	\$1,000	X	75.53%	=	\$755.30
S.T. Cap. Gains	\$50	X	55.79%	=	\$27.90
Total potential 2009 refund for tax withholding from Fidelity Asset Manager® 30% distributions = \$783.20					

Assume an NRA shareholder was invested in Fidelity Asset Manager® 30% during 2009. The two types of applicable 2009 distributions are listed in the table. Aggregating all the dividend distributions the shareholder received during the year as identified in the Investment Reports, the shareholder had a total of \$1,000 in taxes withheld. Similarly, the shareholder had \$50 in taxes withheld from all short-term capital gain distributions. To calculate the potentially refundable portion of taxes withheld, the shareholder would multiply the amount of taxes withheld from each of the two types of distributions by the applicable percentages from the table, as illustrated on the previous page.

If you have any questions or need additional information, please call our Tax Reporting Line at **1-800-544-6666**. Fidelity Representatives are available 24 hours a day, 7 days a week.

Sincerely,

Margaret Serravalli
Executive Vice President
Client Experience

Percentage of Tax Withheld on Dividends that Are Potentially Eligible for a Federal Income Tax Refund
