**2009: Important Information for Utah Residents**

Dear Fidelity Investor:

This letter provides information to help you prepare your Utah state income tax return.

If during 2009 you were a Utah resident and owned shares of any of the funds listed in the table on the following page, then a portion of the interest dividends you received may be exempt from Utah state income tax.

Interest from certain bonds, notes, and other evidences of indebtedness (commonly known as municipal bonds) issued by non-federal governmental entities outside Utah should be subject to Utah state income tax if acquired on or after January 1, 2003, unless such bonds were issued by a state (or political subdivision, agency, or instrumentality of the state) that does not impose an income tax on interest from Utah’s municipal bonds.

To determine the amount of interest dividends that may be exempt from Utah state income tax, multiply the total 2009 interest dividend amount you received for each fund by the applicable Utah exempt percentage of income listed in the table. To find the 2009 interest dividend amount you received for each fund, refer to the Tax-Exempt Interest column of the *State/Local Tax-Exempt Income from Fidelity Funds* section of your 2009 Tax Reporting Statement.

The following example shows how a Utah investor, who owned Fidelity Municipal Income Fund, would calculate the portion of his or her dividend that may be exempt from Utah income tax. For the purpose of this example, assume that the investor had a federal tax-exempt dividend of \$1,000.

Federal Tax-Exempt Dividend Distribution <small>(from 2009 Tax Reporting Statement)</small>		Utah Exempt Percentage of Income <small>(from table)</small>		Portion of dividend distribution that may be exempt from Utah income tax
\$1,000	X	44.44%	=	\$444.40

We suggest that you consult your tax advisor, who is most familiar with your circumstances and the laws of the state in which you reside, to determine how you should report this information on your state income tax return.
