In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Any fixed income security sold or redeemed prior to maturity may be subject to loss.

Specific securities mentioned are for illustrative purposes only and must not be considered an investment recommendation or advice.

To sign up:

- Select News & Research > Alerts, then “Fixed Income holdings”. Here, select “Request a Bid quote” for the account(s) where you hold your bond positions.

- Once you are signed up, request a bid for a bond in your portfolio that you are looking to sell where there is no active bid already displaying. You’ll receive a text message with your bid response.

- Select the fidelity.com/bidresponse URL to sell your bond.
