Overview

This overview provides information about the major municipal borrowers in the State of Connecticut and the Commonwealth of Massachusetts and their bond programs. The borrowers described in this guide include some of the most established and recognized issuers in the municipal market, as well as issuers of bonds under programs that have been established more recently. They reflect the largest and most active issuers in the two states, and encompass various types of debt. In many cases, a single borrower may issue debt under multiple programs that are each repaid with a different revenue source; most of the significant active bond programs are covered for these borrowers. While underlying ratings are shown, individual series or maturities within each of the bond programs may be insured and may not have underlying ratings.

Introduction

This introduction is intended to provide an overview of the long-term economic and fiscal developments taking place in the State of Connecticut and in the Commonwealth Massachusetts. Several factors are weighed and counterbalanced when determining these long-term trends. In terms of the economy, unemployment, job creation, and industry diversity are considered. Trends in the tax base are examined by looking at per capita income, tax burden, and shifts in adjusted gross income into and out of the two states. Finally, trends in the states' fiscal positions are presented in terms of liabilities and reserves.

Of the 50 state economies, Connecticut and Massachusetts rank 1st and 2nd largest, respectively, as measured by per capita personal income from all industries. While both state economies have seen earnings from the finance and insurance industry contribute to a larger than average share of the total, Massachusetts has been more successful at diversifying its economy away from this historically more volatile sector. The last year in which the two states had the same contribution from finance and insurance was 1969. In recent years, Connecticut's peaked in 2010 at 19% and declined to 13% in 2015, before rising to 15% in 2022. Massachusetts' peaked the same year at 13%, fell to a low of 9% in 2019, and was 10% in 2022. The figure for the nation as a whole was 7%. The measure of the states' overall economic diversity may be derived using the Hachman Index. This is an index of similarity that measures how closely industry earnings of the subject region (Connecticut or Massachusetts) resembles that of the reference region (United States). The value of the index is between zero and one. As the value of the index approaches one, this means that the subject region's employment distribution among industries is more similar to that of the reference region. If the reference region is the nation, and, given the assumption that the nation's economy is diversified, a larger Hachman Index value means that a subject region is more diversified (and therefore less specialized). In 2022, Connecticut and Massachusetts both had a Hachman Index value of 0.88, indicating the states were near the middle of the distribution, which is described by a median of 0.88 for all states. Both states have experienced a decline in the share of income earned from the manufacturing sector since the 1950s, when that was the largest sector for the two states and significantly above the nation as a whole. In 2022, Connecticut's retained manufacturing industry at 10% was only slightly above the national average of 9%, while in Massachusetts that sector represented 7%. Service industries have displaced manufacturing as drivers of personal income growth. The finance and insurance, healthcare, and professional services sectors were the largest in terms of personal income from non-government sectors in Connecticut, with healthcare becoming larger than manufacturing in 2019 and professional services in 2022. Massachusetts' largest industries by earnings were professional services (18%), healthcare (12%), and finance and insurance (10%).

The charts on the following page illustrate the trends in the states' economic diversity (Hachman Index), and in the four largest non-government sector industries in terms of personal income in 2022.

Introduction

Connecticut had a lower unemployment rate than Massachusetts in nearly 90% of all years from 1976 to 2007, before the onset of the financial crisis in 2008. In the subsequent 15 years Connecticut's unemployment rate has been higher in all but the recession year 2020 – underscoring the lackluster recovery from the financial crisis that hit the finance and insurance sector hardest. However, as 2020 most recently showed, in years around national economic recessions Massachusetts' unemployment rate may be prone to rise at a faster pace than Connecticut's, only to recover faster afterward. Whether Massachusetts' labor market is more flexible is perhaps open to debate, though the next paragraph on job creation and destruction may shed some light on this subject. Connecticut's average unemployment rate in 2022 was 4.2% compared to 3.8% for Massachusetts.

Another measure of employment health comes from the Census Bureau's Business Dynamics Statistics, which contains the results of a census of business establishments and firms in the U.S. The census includes measures of establishment openings and closings, firm startups, job creation and destruction by firm size, age, and industrial sector, and several other statistics on business dynamics. One such measure is the net job creation rate, which considers gross job creation and gross job destruction figures within a year's period, in order to find net job creation rates (NJCR) among businesses of all sizes within each state. Like all aggregate economic statistics, the NJCR is not without its flaws, as it fails to capture the quality of jobs being destroyed and created. However, it may be useful in assessing the general trend of business dynamism within a state when paired with income and economic diversity data. The NJCR for Connecticut and Massachusetts averaged 0.73% and 1.27%, respectively, in the 43-yr period ending 2020. However, in the most recent data (2020) Connecticut's 0.67% NJCR was above Massachusetts' -0.03% rate. Though this may not be surprising given the higher unemployment rate in Massachusetts that year. The compound average rates in more recent years (2016-2020) was 0.94% for Connecticut and 1.51% for Massachusetts.

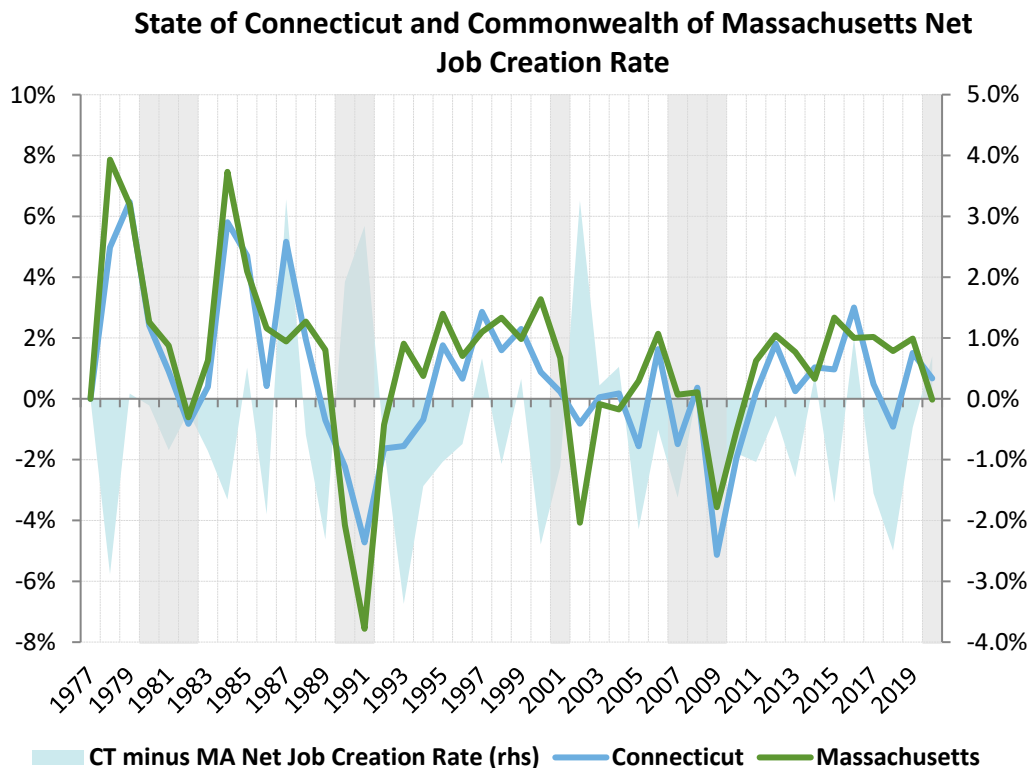

The unemployment rate and net job creation statistics may indicate that Massachusetts has maintained a more dynamic business climate, one with greater flexibility to purge and reabsorb workers through business cycles, enabling the state to take advantage of potential structural labor market changes.

The charts on the following page illustrate the trend in the states' unemployment and net job creation rates.

Introduction

Connecticut and Massachusetts are wealthy states, having ranked first and second highest in per capita personal income (PCPI) in 2022, respectively. Connecticut had experienced an upward sloping trend in PCPI when compared to the nation until it peaked at 152% in 2010. Since then, it has steadily declined to 129% in 2021, before rising back to 130% in 2022, which was still the lowest level since 1986. In 2020, Connecticut's PCPI fell below Massachusetts' for the first year since at least 1977 and has been roughly even with the Bay State's over the past three years. The diversification away from the high-paying jobs in the finance and insurance sector in the years since 2008 has had certain drawbacks. The upward trend in Massachusetts' PCPI has been more consistent, having risen to 132% relative to the nation in 2020, before settling at 130% over the next two years.

Connecticut's state personal tax burden was notably above the national median in most years over the past three decades. However, in 2022 the tax burden fell below the national median for the first time since 2010. Massachusetts' state personal tax burden spiked above the median in 2022, with both ending the period since 1977 at a new record high. The state personal tax burden is calculated by taking total state tax revenue excluding corporate income and severance taxes divided by total state personal income excluding federal transfer receipts. Importantly, the state personal tax burden does not include local taxes such as property taxes. Connecticut residents were subject to a 7.4% state personal tax burden in 2022, down from 7.8% in 2021. Massachusetts had an 8.0% state personal tax burden compared with a 6.9% rate in the prior year; the 2022 median for U.S. states was 7.7%.

Looking at changes in a state's population may provide limited value regarding how the tax base may be changing. The migration of AGI between and among the states provides a more accurate measure of the trend in a state's tax base. The Statistics of Income Division of the IRS maintains records of all individual income tax forms filed in each year, including the state of residence of the filers. The data used to produce the migration statistics come from individual income tax returns and represent between 95% and 98% of total annual filings. One gauge of the degree of movement in a state's tax base is the extent to which it is on the sending or receiving end of AGI migration. The net dollar flow of AGI between Connecticut and Massachusetts and other states, as well as the number of inflows received from and outflows sent to every other state, provide a good indication of how the two states' tax bases are changing. In the two years since the pandemic, work habits and lifestyle preferences changed the flow of AGI dramatically for many states. Connecticut benefited from AGI migration from New York that gave the state its first positive net in-migration since the 2002-2003 period and only the second one since 1992-1993. In the eight years prior to 2020 the Nutmeg State lost \$1.1-\$2.6 billion of its tax base each year or -1% on average. The opposite happened in Massachusetts, which saw net out-migration jump to -\$2.5 billion in 2019-2020 and to -\$4.3 billion in 2020-2021, compared to a range of -\$0.5 billion to -\$1.9 billion during the prior 8 years. As a percentage of the tax base the most recent outflow was -1.4% compared with an 8-year average of -0.4% in the period before the pandemic. In terms of breadth, the states remained on the losing end, both having lost part of their tax bases to 38 other states, meaning that they each had a net inflow from 12 states. Clearly, the pandemic affected the two states differently. The charts on the following pages illustrate the trend in the states' per capita personal income, state personal tax burden, and tax base.

Introduction

Connecticut's and Massachusetts' wealthy tax bases have enabled the states to support large debt burdens. Total net tax supported debt (NTSD) of \$28.9 billion in Connecticut and \$47.7 billion in Massachusetts rank them 6th and 4th highest among states, respectively. At 9.6% and 8.2% of personal income their NTSDs rank 2nd and 3rd, respectively, and significantly above the 2.1% U.S. state median. Part of the explanation for their high debt levels may be attributed to the financing of projects that in other states are financed at the local level. Nevertheless, their debt burdens are high in addition to having large unfunded pension system liabilities. Connecticut's Moody's adjusted net pension liability (ANPL) was \$83 billion in 2022. Massachusetts' ANPL was \$99 billion. Neither state has a history of maintaining strong pension funding levels, although both have enacted reforms even though material near-term progress is not expected. Going forward, both states have committed to fully funding their actuarially required contribution (ARC) amounts. Most states do not annually set aside 100% of their other post employment benefits (OPEB) ARC, and Connecticut and Massachusetts are not different in this respect. Both states have incurred substantial OPEB commitments, with Connecticut's Moody's adjusted net OPEB liability (ANOL) at \$24 billion and Massachusetts' at \$17 billion. Taken together with NTSD and ANPL, total liabilities represented 45% of Connecticut's personal income and 28% of Massachusetts'.

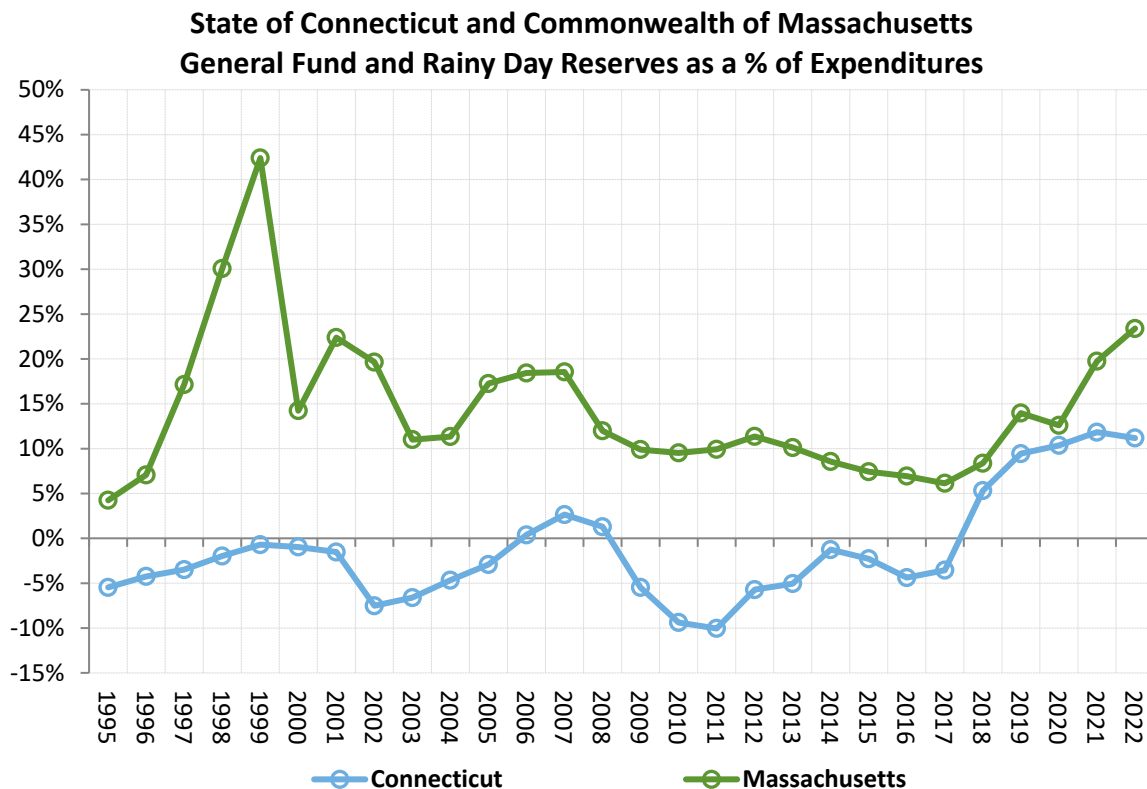

One measure of a state's financial flexibility is its unrestricted reserves and rainy-day fund balances. At fiscal year end 2022, Connecticut had unrestricted reserves in its general fund of negative \$752 million, and a committed rainy-day fund balance of \$3.3 billion; the combined balance equated to 11.2% of general fund expenditures, marginally down from fiscal 2021, but otherwise the highest level since at least 1995. Massachusetts had unrestricted reserves in its general fund of \$4.4 billion, and a committed rainy-day fund balance of \$6.9 billion, resulting in a combined balance of 23.4% of general fund expenditures, the highest since 1999.

The charts on the following page illustrate the trend in the states' NTSD and reserve levels.

State Revolving Fund (Clean Water Fund) General Revenue Bonds

Moody's Aaa S&P AAA Fitch AAA

Purpose

- Bond proceeds were used to provide a source of low interest loans and other types of financial assistance to local entities for the construction, rehabilitation, expansion or improvement of wastewater treatment or drinking water facilities.
- The loans provided were either at heavily discounted interest rates or the State paid for a portion of the project and the remaining loan was at a low interest rate.

Security

- The bonds are secured by all available funds of the program, which are derived from borrower loan repayments and program equity, as well as interest earnings and support funds.
- Each borrower must deliver a Borrower Obligation which provides for the repayment of the principal and interest on the loan. The Borrower Obligation is either a general obligation or a revenue obligation of each participant.

Bonds Outstanding

- \$747 million as of June 30, 2022

Anticipated Borrowings

- None

Special Tax Obligation Bonds

Moody's Aa3 S&P AA Fitch AA-

Purpose

- Bond proceeds were used to fund the Infrastructure Program, which was established in 1984. The program finances the ongoing requirements of all aspects of the State highways and bridges, interstate highway system projects, waterway facilities, mass transportation and transit facilities, aeronautic facilities, maintenance garages, and highway safety programs.

Bonds Outstanding

- \$7.0 billion as of June 30, 2022

Debt Service Reserve Fund

- The Debt Service Reserve Fund Requirement for the senior bonds is equal to MADS.
- The Debt Service Reserve Fund Requirement for the second lien Bonds is equal to MADS on the senior and second lien Bonds less the amount on deposit in the Senior Debt Service Reserve Fund.

Security

- The Bonds are special obligations of the State payable solely from Pledged Revenues and other moneys pledged including investment earnings. Pledged Revenues consist of general sales taxes, motor fuels taxes; motor vehicle receipts; motor vehicle related licenses; permits and fees; oil companies tax payments; sales tax related to DMV payments; motor vehicle fines and other items. The Pledged Revenues are credited to the Special Transportation Fund.
- The obligation of the State to pay the Debt Service Requirement of the senior Bonds will be further secured by a Gross Pledge and a lien upon certain amounts held in the Special Transportation Fund.
- The second lien Bonds are secured by a second lien on Pledged Revenues and amounts held in the Special Transportation Fund. Remaining Fund resources, subject to appropriation, may be applied to debt service on the State's GO bonds issued for transportation purposes and to the payment of State budget appropriations for the Department, the DMV and the Department of Public Safety.

Special Tax Obligation Bonds (cont.)

Moody's Aa3 S&P AA Fitch AA-

Rate Covenant

- The State covenants to provide Pledged Revenues in each fiscal year, after deducting payments for required reserves under the Senior Indenture, in an amount equal to at least 2x the aggregate principal and interest requirements on all senior Bonds outstanding and interest on senior notes. As long as second lien Bonds are outstanding, the Pledged Revenue Coverage Requirement must include coverage for all bonds outstanding.
- The State is obligated pursuant to the Second Lien Indenture to provide Pledged Revenues, in each fiscal year, after deducting payments for required reserves, in an amount equal to at least 2x the aggregate principal and interest requirements on all bonds outstanding.

Anticipated Borrowings

- \$5.1 billion authorized but unissued as of June 30, 2022.

Additional Bonds Test

- Additional senior Bonds may be issued if certain conditions are met including that Pledged Revenues for any 12-month period in the preceding 18 months must equal at least 2x the aggregate principal and interest requirements on senior Bonds and interest requirements on senior notes.
- Additional second lien Bonds may be issued if certain conditions are met including that Pledged Revenues for any 12-month period in the preceding 18 months must equal at least 2x the aggregate principal and interest requirements on all Bonds outstanding and additional Bonds.
- The Second Lien Indenture provides that the State may not issue senior Bonds unless the coverage test described above is met for all outstanding Bonds and notes.
- As long as the second lien Bonds are outstanding, the State has covenanted not to issue senior short-term notes

General Obligation Bonds

Moody's Aa3 S&P AA- Fitch NR

Purpose

- Bond proceeds were used to finance construction at magnet and public-school facilities and police and fire complexes, as well as for various infrastructure improvements.

Bonds Outstanding

- \$424 million as of June 30, 2022

Additional Bonds Test

- Under Connecticut law, municipalities can not incur indebtedness through the issuance of general obligation bonds that will cause aggregate indebtedness by class to exceed the following:
General Purpose: 2.25x annual receipts from taxation.
School Purpose: 4.50x annual receipts from taxation.
Sewer Purpose: 3.75x annual receipts from taxation.
Urban Renewal Purpose: 3.25x annual receipts from taxation.
Pension Deficit Funding: 3.00x annual receipts from taxation.
In no case shall total indebtedness exceed seven times annual receipts from taxation.

Security

- The bonds are general obligations and are secured by the full faith and credit of the City of Hartford.
- Public Act 17-2, authorizes the OPM Secretary and state treasurer to enter into contract with Tier III and Tier IV municipalities to provide them with financial assistance. A contract between the state and Hartford pursuant to this authorization was effectuated March 29, 2018. Contract assistance is limited to annual debt service on bonds outstanding as of the contract date or refunding bonds. The contract provides for the state to make direct payments to the city, trustee, paying agent or bondholder. The contract constitutes a full faith and credit obligation of the state.

Anticipated Borrowings

- None specified

Yale University Revenue Bonds

Moody's Aaa S&P AAA Fitch NR

Purpose

- Proceeds were used for general University purposes, providing flexible cash resources to the University. Proceeds were also used for financing a variety of capital projects and refunding outstanding bonds.

Anticipated Borrowings

- None specified

Yale New Haven Health Revenue Bonds (cont.)

Moody's A1 S&P AA- Fitch AA-

Rate Covenant

- The Obligated Group agrees that if it does not maintain for each Fiscal Year the Long-Term Debt Service Coverage Ratio of at least 1.25x, that it will retain a Consultant. If, as of the end of any Fiscal Year, the Long-Term Debt Service Coverage Ratio is less than 1.00x, then an Event of Default shall be deemed to have occurred under the Loan Agreement.
- The Obligated Group covenants to set tuition and other fees so that together with its general funds will provide revenue sufficient to cover all obligations of the Obligated Group including operating expenses and debt service.

Additional Bonds Test (cont.)

- With the prior written consent of the Authority, which consent shall not be unreasonably withheld, at least one of the following shall have been satisfied.
- (i) The total principal amount of Long-Term Indebtedness to be incurred plus all other outstanding Long-Term Indebtedness will not exceed 15% of Operating Revenues on a historical basis, and the Long-Term Debt Service Coverage Ratio shall have been met, taking into consideration projected revenues and the proposed Indebtedness; or (ii) the Long-Term Debt Service Coverage Ratio is not less than 1.35x on an historical basis, including the proposed indebtedness; or (iii) the Long-Term Debt Service Coverage Ratio is not less than 1.25x on a prospective basis, including the proposed indebtedness.

Fairfield University Bonds

Moody's A2 S&P A Fitch NR

Purpose

- Fairfield University is an independent, co-educational institution of higher education. Bond proceeds were used to fund various capital improvement projects at University campuses.

Security

- The obligation to repay the loan is an unsecured general obligation of the University.
- While the bonds are not secured by a mortgage, the University covenants not to create any mortgage, lien, or security interest on its property, without the prior written consent of the Authority.

Bonds Outstanding

- \$297 million as of June 30, 2022

Debt Service Reserve Fund

- No DSRF is required on outstanding Bonds. May be required on future series.

Anticipated Borrowing

Fairfield University Bonds (cont.)

Moody's A2 S&P A Fitch NR

Rate Covenant

- The University agrees to maintain a Long-Term Debt Service Coverage Ratio whereby Income Available for Debt Service to MADS is at least 1.50x.
- The University covenants to maintain its tuition and other charges to provide Operating Revenues sufficient to cover all operating expenses, debt service on the bonds, and all other obligations of the University.

Additional Bonds Test

- The University, with the consent and approval of the Authority, which consent shall not be unreasonably withheld, and subject to certain provisions of the Loan Agreement, reserves the right to issue additional Indebtedness as Parity Debt or otherwise.

Quinnipiac University Bonds

Moody's A3 S&P A- Fitch NR

Purpose

- Quinnipiac University (the "Institution") is a private, coeducational institution of higher education with its main campus located in Hamden, CT. Bond proceeds were used for various capital improvement projects on the University's three campuses.

Security

- The bonds are secured by a mortgage granted to the Authority on the Institution's main campus. The mortgage is an absolute, unconditional, and general obligation of the Institution. In addition, there are restrictions on the creation or imposition of liens.

Bonds Outstanding

- \$370 million as of June 30, 2022

Debt Service Reserve Fund

- No DSRF is required on outstanding Bonds. May be required on future series.

Anticipated Borrowing

Quinnipiac University Bonds (cont.)

Moody's A3 S&P A- Fitch NR

Rate Covenant

- The Institution agrees that if it does not maintain for each Fiscal Year the Long-Term Debt Service Coverage Ratio of at least 1.25x, that it will retain a Consultant. If, as of the end of any Fiscal Year, the Long-Term Debt Service Coverage Ratio is less than 1.00x, then an Event of Default shall be deemed to have occurred under the Loan Agreement.
- The Institution covenants to set tuition and other fees so that together with its general funds will provide revenue sufficient to cover all obligations of the Institution including operating expenses and debt service.

Additional Bonds Test

- The Institution, with the consent and approval of the Authority, which consent shall not be unreasonably withheld, and subject to certain provisions of the Loan Agreement, as described below, reserves the right to issue additional Indebtedness as Parity Debt or otherwise.
- (i) The total principal amount of Long-Term Indebtedness to be incurred plus all other outstanding Long-Term Indebtedness will not exceed 15% of Operating Revenues on a historical basis, and the Long-Term Debt Service Coverage Ratio shall have been met, taking into consideration projected revenues and the proposed Indebtedness; or (ii) the Long-Term Debt Service Coverage Ratio is not less than 1.35x on an historical basis, including the proposed indebtedness; or (iii) the Long-Term Debt Service Coverage Ratio is not less than 1.25x on a prospective basis, including the proposed indebtedness.

Housing Mortgage Finance Program Bonds

Moody's Aaa S&P AAA Fitch NR

Purpose

- The Authority was created for the purpose of increasing the supply of and assisting in the purchase, development, and construction of housing for low and moderate income families and persons throughout the state.
- Bond proceeds were used to finance single family mortgage loans throughout the state, to refund outstanding bonds, and to fund the Housing Mortgage Capital Reserve Fund.

Debt Service Reserve Fund

- The Housing Mortgage Capital Reserve Fund must be maintained in an amount equal to MADS.
- In the event the Reserve Fund falls below the minimum requirement, on or before December 1st of each year, the shortfall will be appropriated from the State's General Fund to restore the Reserve Fund.

Security

- The bonds are general obligations of the Authority.
- The bonds are secured by the revenues and assets which consist primarily of interest in first lien mortgages, investments and reserves held with the Trustee, and all funds available to the Authority on behalf of the Housing Mortgage Finance Program.

Bonds Outstanding

- \$4.4 billion as of December 31, 2022

Anticipated Borrowings

- On average, the Authority issues \$125 million in bonds approximately 4 times a year to finance single family mortgage loans. However, none specified.

Water System Revenue Bonds

Moody's Aa3 S&P AA- Fitch NR

Purpose

- The Authority owns and operates an extensive water supply and distribution system which serves customers in fifteen municipalities and owns land in five additional municipalities within the District. Bond proceeds were used to acquire utilities, fund a variety of system improvements and to finance necessary deposits into certain other funds.

Bonds Outstanding

- \$533 million as of May 31, 2022

Debt Service Reserve Fund

- The Debt Service Reserve Fund must equal the lesser of (i) MADS (ii) 10% of the stated principal amount, or (iii) 125% of the Average Annual Principal and Interest Requirements.

Security

- The bonds are secured by a pledge of net revenues as well as all moneys and securities in all the funds established by the bond resolution. Revenues include income derived from the payment of rates and charges for water service and investments in the funds other than the Construction Fund. Revenues do not include, however, government grants and contributions for capital improvements. The payment of debt service has priority over any claim from Payments-in-lieu-of-Taxes (PILOT). PILOTs are required to be paid to municipalities in which the Authority owns property.

Anticipated Borrowing

- None specified.

South Central CT Regional Water Authority

Water System Revenue Bonds (cont.)

Moody's Aa3 S&P AA- Fitch NR

Rate Covenant

- The Authority has covenanted to set rates for the Water System at levels sufficient to produce the greater of: (i) revenues that will equal at least all expenses, PILOTS, debt service requirements, and any other obligation of the Water System, (2) Net Revenues that will equal at least 114% of debt service, or (3) Net Revenues plus PILOT payments that will equal at least 125% of debt service.

Additional Bonds Test

- Additional bonds are permitted to be issued on parity with the existing outstanding bonds as long as such bonds do not exceed \$10 million or 10% of the aggregate amount of bonds outstanding unless they are being issued for refunding or completion purposes. In addition, (i) Revenues during any twelve consecutive month period out of the preceding 18 months can not be less than 100% of all expenses and obligations (ii) Net Revenues can not be less than 114% of MADS and (iii) Net Revenues plus PILOT payments must equal at least 125% of MADS.

Hartford County Metropolitan District

General Obligation Bonds

Moody's Aa3 S&P AA Fitch NR

Purpose

- This District provides water supply, sewer collection, treatment and disposal services to its eight member communities including Bloomfield, East Hartford, Hartford, Newington, Rocky Hill, West Hartford, Wethersfield, and Windsor. The District also has special agreements for water supply and sewage disposal facilities with 10 non-member towns and various state facilities. Bond proceeds provide funding for various public improvement projects.

Security

- The bonds are general obligations of the District and secured by the District's authority to levy unlimited taxes on the eight member municipalities.

Bonds Outstanding

- \$656 million as of December 31, 2022

Anticipated Borrowing

- Total of authorized but unissued bonds as of December 31, 2022, is \$552 million.

Debt Service Reserve Fund

- None.

Clean Water Project Revenue Bonds

Moody's Aa2 S&P AA Fitch NR

Purpose

- The District developed the Clean Water Project (CWP) in order to address a consent decree with the State Department of Environmental Protection, Department of Justice and US Environmental Protection Agency by 2029. The District implemented the Clean Water Project Charge (formerly Special Sewer Service Surcharge) in fiscal 2008 in anticipation of issuing debt specifically for the CWP.

Security

- The bonds are secured by a gross revenue pledge of the District's dedicated Clean Water Project Charge revenues, including transfers from the Rate Stabilization Fund. The charge is applied to the water bill of property owners that utilize any of the District's services for sewage collection, treatment, and disposal. The District has the legal authority to raise the charge without limitation.

Bonds Outstanding

- \$309 million as of December 31, 2022

Anticipated Borrowing

- None specified.

Debt Service Reserve Fund

- None.

Clean Water Project Revenue Bonds (cont.)

Moody's Aa2 S&P AA Fitch NR

Rate Covenant

- The District has covenanted to set the Clean Water Project Charge sufficient to produce gross revenues equal to at least 120% of debt service. After debt service on the bonds is paid, residual revenues are deposited in the Rate Stabilization Fund where they are legally available to pay debt service on any debt issued to fund the CWP as well as capital expenses for the CWP. The District can make transfers from the Rate Stabilization Fund to pay debt service in any period of up to 35% of debt service on the bonds; these transfers can be included as revenue to meet the rate covenant. Clean Water Project Charge revenues and transfers from the Rate Stabilization Fund to pay debt service are together referred to as Pledged Revenues.

Additional Bonds Test

- Additional Bonds may be issued if a certificate of an Authorized Officer states that (i) Revenues Available for Debt Service, based on most recent Audited Financial Statements preceding date of issuance of such Additional Bonds, with respect to either of the two prior Fiscal Years, were equal to at least 1.20x the Debt Service Requirement on all Outstanding Bonds for such Fiscal Year, or (ii) Revenues Available for Debt Service for either of the last two Fiscal Years, adjusted for any adopted increases in the Clean Water Project Charge as if such increases had been in effect from the beginning of such Fiscal Year, were equal to at least 1.20x the Debt Service Requirement on all Outstanding Bonds for such Fiscal Year.
- Refunding Bonds may be issued if a certificate of an Authorized Officer states that (i) estimated average annual Debt Service Requirements on such Refunding Bonds does not exceed average annual Debt Service on the Bonds to be refunded and (ii) the maximum Debt Service Requirement in any Fiscal Year on such Refunding Bonds shall not exceed maximum Debt Service in any Fiscal Year on Bonds to be refunded.

General Obligation Bonds

Moody's Aa3 S&P AA- Fitch A+

Purpose

- The Bonds are authorized pursuant to the University of Connecticut 2000 Act and are secured under the provisions of a General Obligation Master Indenture, dated November 1, 1995, as supplemented and amended by certain supplemental indentures.
- The Act enables the University to borrow money in its own name on behalf of the State for the purpose of providing sufficient funds for a special capital improvement program for the University (UConn 2000).
- The UConn 2000 program is designed to modernize, rehabilitate and expand the physical plant of the University.

Bonds Outstanding

- \$1.7 billion as of June 30, 2022

Anticipated Borrowing

- \$500 million through fiscal 2027.

Security

- The Bonds are general obligations of the University for which its full faith and credit are pledged and are payable from all Assured Revenues. Assured Revenues, include general revenues from fees, tuition and other like charges, grants and gifts, all to the extent not otherwise pledged, as well as annual State appropriations for operating expenses and the annual amounts of the State Debt Service Commitment.
- The State Debt Service Commitment requires the State to pay an annual amount for the punctual payment of Special Debt Service Requirements on securities issued as general obligations of the University. Special Debt Service Requirements include the principal on serial Bonds or sinking fund installments on term Bonds and interest accruing thereon.
- The Act provides that appropriation of all amounts of the State Debt Service Commitment shall be made from the resources of the General Fund of the State and that the Treasurer of the State shall pay such amount in each fiscal year on the Bonds or otherwise as the Treasurer shall provide.

General Obligation Bonds (cont.)

Moody's Aa3 S&P AA- Fitch A+

Additional Bonds Test

- The University may issue Additional Bonds to finance UConn 2000 projects secured by the State Debt Service Commitment upon the terms and conditions set forth Master Indenture.
- The Act currently limits the maximum amount of Bonds secured by the State Debt Service Commitment to \$4,282,900,000, exclusive of any amounts borrowed to refund Bonds, plus amounts necessary to finance costs of issuance.

Rate Covenant

- The Act contains a rate covenant whereby the University agrees to charge and collect and increase from time to time, tuition, fees and charges for services, which together with other Assured Revenues, such as those from the Minimum State Operating Provision and the State Debt Service Commitment, shall be sufficient to permit the University to operate and maintain itself as an institution dedicated to excellence in higher education, to operate and maintain the physical University plant in sound operating condition, and to cover the Special Debt Service Requirements on Outstanding Bonds.

The Commonwealth of Massachusetts

General Obligation Bonds

Moody's Aa1 S&P AA+ Fitch AA+

Purpose

- Bond proceeds were used to finance capital projects of the Commonwealth and to refund certain bonds.

Bonds Outstanding

- \$27.7 billion as of June 30, 2022

Anticipated Borrowings

- \$14.5 billion under the FY24-FY28 Capital Investment Plan, including \$2.9 billion in FY24.

Security

- The bonds are secured by the full faith and credit of the Commonwealth of Massachusetts. However, Massachusetts' General Laws impose a limit on state tax revenue growth. The limitation for each fiscal year is equal to the average positive rate of growth in total wages and salaries during the three preceding calendar years. In addition, the law provides that no more than 10% of the total appropriations in any fiscal year may be expended for payment of principal and interest on general obligation debt.

Metropolitan Highway System Senior Revenue Bonds

Moody's A2 S&P A+ Fitch A+

Purpose

- Bond proceeds were used to pay certain costs relating to the Central Artery/Tunnel Project in Boston, to refund certain outstanding indebtedness of the Massachusetts Turnpike Authority, to fund the Senior and second lien Debt Service Reserve Funds, and to pay portions of interest due.

Debt Service Reserve Fund

- The Debt Service Reserve Fund must equal the lesser of (i) 10% of the original net proceeds from the sale of such series, (ii) 125% of Average Annual Debt Service, or (iii) MADS.

Bonds Outstanding

- \$697 million as of June 30, 2022

Rate Covenant

- The Department is required to set tolls, rentals, and other charges such that Net Revenues for such fiscal year must equal the greater of (i) 1.20x the Senior Net Debt Service, (ii) 1.15x the Combined Net Debt Service, or (iii) 1.00x the Combined Net Debt Service plus the Capital Reinvestment Requirement for that fiscal year which is established by the Department in its annual budget.

Security

- The Bonds are secured by a senior lien pledge of the System's Net Revenues derived from the Accepted Metropolitan Highway System that includes tolls, rates, fees, rentals, and other charges/revenues and certain investment income. The senior Bonds are further secured by a first claim on \$25 million in annual Contract Assistance by the Commonwealth of Massachusetts and by a second lien claim on an additional \$100 million in annual Contract Assistance payable first to the second lien Bonds. State Revolving Fund Bonds

Moody's Aaa S&P AAA Fitch AAA

Purpose

- The Trust was established to provide financial assistance to borrowers for water pollution abatement projects and drinking water projects.
- There are three programs under which borrowers have received loans: Master Trust Agreement (the MTA, or the active program), Pool SRF Program (the prior program), and the MWRA Program.

Bonds Outstanding

- \$2.3 billion as of June 30, 2022

Security

- The majority of loans funded by the SRF Bonds are general obligations of the related borrowers. The remaining are revenue obligations payable solely from water and wastewater revenues of the related borrowers.
- Reserve funds are established to reduce financing costs for the Trust's borrowers by applying investment earnings on such reserve funds to pay a portion of the debt service on the related Bonds.

Security, cont.

- The SRF programs were established to accept federal grants and required the Commonwealth to match 20% of the grants. The matching payment is a general obligation of the Commonwealth.
- Each borrower is obligated to repay the principal amount of its loan at a subsidized interest rate of 2% or less if the maturity is no longer than 20 years. Certain loans with terms longer than 20 years may bear an interest rate in excess of 2%. The Trust has the right to intercept local aid payments made by the Commonwealth to a city or town in the event the specific municipality fails to make payments.
- In addition to matching funds, the Commonwealth provides assistance payments to the Trust on behalf of each borrower. The obligation is a general obligation of the Commonwealth in which the State's full faith and credit is pledged.

- The Trust Agreement established a Debt Service Reserve Fund Requirement in an amount equal to the least of (i) 10% of the aggregate original net proceeds from the sale of all Bonds Outstanding, (ii) 125% of average annual Debt Service on all Bonds Outstanding and (iii) the maximum amount of Debt Service due in any future Fiscal Year on all Bonds Outstanding. After 2019, a majority of bondholders consented to eliminate the Requirement by reducing it to zero.
- Although the Authority may have amounts on deposit in the DSRF, it is no longer obligated under the Trust Agreement to retain such amounts.

Massachusetts School Building Authority

Dedicated Sales Tax Bonds

Senior: Moody's Aa2 S&P AA+ Fitch AAA
Subordinate: Moody's Aa3 S&P AA Fitch AA+

Purpose

- Bond proceeds were used to fund grants to cities, towns and regional school districts for school construction and renovation projects. In addition, Bond proceeds were used to satisfy the Reserve Fund requirements.

Debt Service Reserve Fund

- The Debt Service Reserve Fund requirement will be set on a series-by-series basis.

Additional Bonds Test

- Additional Bonds may be issued if either: (i) the Dedicated Sales Tax Revenue amount during any 12 consecutive months within the prior 24 months provides at least 1.4x MADS on the Senior Bonds and any additional Senior Bonds or 1.3x MADS on all Bonds and any additional Subordinate Bonds; or (ii) pledged revenues in each fiscal year following the issuance of any additional Bonds are projected to provide at least 1.4x annual debt service on Senior Bonds, including the new Senior Bonds, or 1.3x annual debt service on all Bonds, including the new Subordinate Bonds, and the Authority must deliver a rating confirmation from each rating agency on the outstanding Bonds.

Security

- The Bonds are secured by a Dedicated Sales Tax Revenue Amount equal to 1% of the 6.25% sales tax imposed by the Commonwealth on retail sales transactions, with certain revenues excluded from the DSTRA (i.e., taxes on meals).
- The DSTRA will be credited, without appropriation, to the SMART Fund and pledged to the benefit of the owners of the Bonds.
- Certain moneys that are not derived from the DSTRA may from time to time be credited to the SMART Fund on a non-recurring basis and disbursed to the Authority. Such moneys are to be used for the purposes of the Authority and are not held for the benefit of the owners of the Bonds.

In general the bond market is volatile, and fixed income securities carry interest rate risk. As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities. Fixed income securities also carry inflation, credit, and default risks for both issuers and counterparties. Lower-quality fixed income securities involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. Any fixed-income security sold or redeemed prior to maturity may be subject to loss.

Diversification does not ensure a profit or guarantee against a loss. Interest income earned from tax-exempt municipal securities generally is exempt from federal income tax, and may also be exempt from state and local income taxes if you are a resident in the state of issuance. A portion of the income you receive may be subject to federal and state income taxes, including the federal alternative minimum tax. In addition, you may be subject to tax on amounts recognized in connection with the sale of municipal bonds, including capital gains and "market discount" taxed at ordinary income rates. "Market discount" arises when a bond is purchased on the secondary market for a price that is less than its stated redemption price by more than a statutory amount. Before making any investment, you should review the official statement for the relevant offering for additional tax and other considerations.

The municipal market can be adversely affected by tax, legislative, or political changes and the financial condition of the issuers of municipal securities. Investing in municipal bonds for the purpose of generating tax-exempt income may not be appropriate for investors in all tax brackets or for all account types. Tax laws are subject to change and the preferential tax treatment of municipal bond interest income may be revoked or phased out for investors at certain income levels. You should consult your tax adviser regarding your specific situation.

Investing in municipal bonds for the purpose of generating tax-exempt income is generally more beneficial the higher an investor's tax bracket. Tax-advantaged accounts such as IRAs and 401(k)s are generally not appropriate for holding tax-exempt municipal securities.
