

New mobile trading capabilities for CD investors

Auto Roll Service now available for CDs

What's new

When purchasing CDs on the Fidelity Mobile® app, investors can now select and sign up for Auto Roll, which will automatically reinvest the proceeds of the maturing CD into a new CD of the same length.

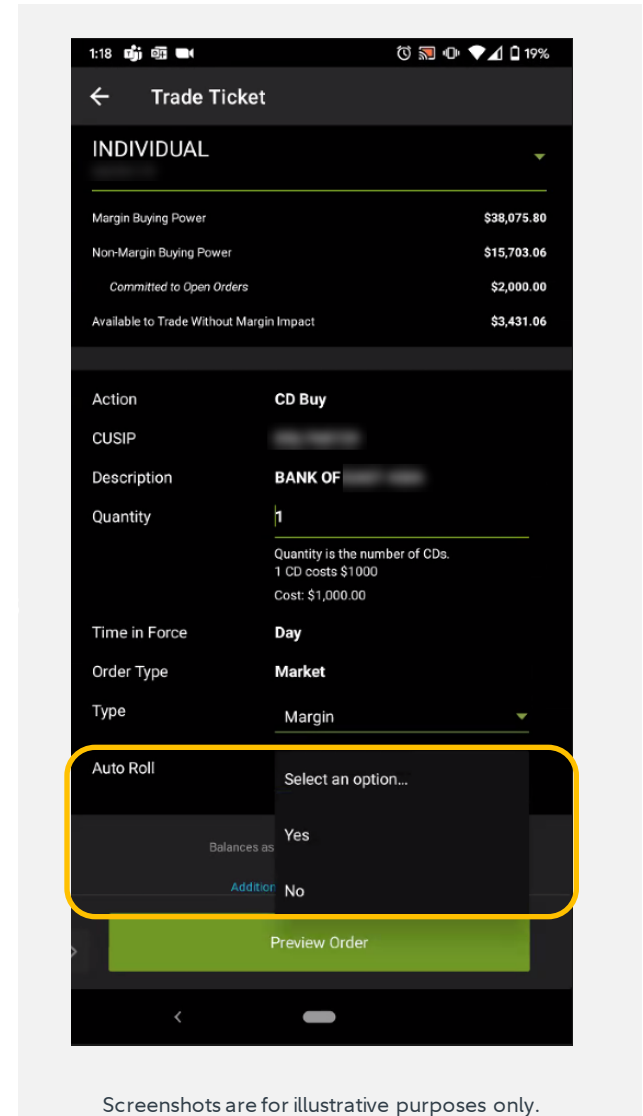

Here's how:

- 1 Select **Transact** from the menu ribbon at the bottom of the screen, then **Buy New Issue CDs**.
- 2 Select a **CD offering** that matches your needs to view the CD details and proceed to **Buy**.
- 3 Select **Yes** in the Auto Roll row on the Trade ticket screen.
- 4 Review the **Auto Roll Agreement**.
- 5 Sign up for **Auto Roll Alerts**.
- 6 Complete the New issue CD order process.

Any fixed income security sold or redeemed prior to maturity may be subject to a substantial gain or loss. Your ability to sell a CD on the secondary market is subject to market conditions. If your CD has a step rate, the interest rate may be higher or lower than prevailing market rates. The initial rate on a step-rate CD is not the yield to maturity. If your CD has a call provision, which many step-rate CDs do, the decision to call the CD is at the issuer's sole discretion. Also, if the issuer calls the CD, you may obtain a less favorable interest rate upon reinvestment of your funds. Fidelity makes no judgment as to the creditworthiness of the issuing institution.

Callable and Step-up CDs are not available for purchase on the mobile application. Please visit Fidelity.com/CDs to complete transactions for CDs with these attributes. 948954.2.0
