

A modernized look and feel that is quick and simple to use, providing you with the information you need or access to it with less clicks!

Additional explanation

Product type	3 month	6 month	9 month	1 year	2 year	3 year	5 year	10 year	20 year	30+ year
New issue CDs	4.00%	4.05%	4.05%	4.25%	4.40%	4.55%	4.75%	4.50%	--	--
New issue CDs - call protected	4.00%	4.05%	4.05%	4.10%	4.25%	4.35%	4.40%	--	--	--
US Treasury	3.89%	4.00%	4.09%	4.17%	4.26%	4.28%	4.36%	4.59%	5.17%	5.10%

- Select **Search** to view all available results. – for secondary market offerings. You can also select a product type on the left to narrow your search further.
- To conduct a new issue search, select the **New issue** tab then the Search button, or refine further by selecting a product type before selecting Search.
- Selecting New issue CDs conveniently delivers you to the CDs & Ladders tab on the search results pages. Similarly, selecting new issue tax-exempt or taxable municipal bonds (or both) delivers you to the New issue municipal bonds tab on the search results pages.
- You can also search for bonds by **issuer name**. For example, typing in "Apple" in the first search field would result in viewing Apple corporate bonds as well as Apple Valley municipal bonds. By selecting "Corporate" (only) in the second field, only corporate bonds with Apple in the name would display.

Enhanced display now highlights the highest CD rate (callable & call protected) in the top row, followed by a dedicated row displaying highest call-protected CD rates for easy comparison.

How to use the new Fixed income, Bonds & CDs page

What's New

A modernized look and feel that is quick and simple to use, providing you with the information you need or access to it with less clicks!

New Fixed income, bonds & CDs page

Build your CD ladder

Plan income for when you need it, use models to filter the new issue CD inventory, then use the screening criteria to build your own CD ladder.

Instead of tabs the new landing page provides access to popular resources all on the same page. Scroll further down the page to find links to our fixed income articles, charting and fixed income tools.
 - 5 Other products and resources**
Easily access other ways to allocate into the fixed income product asset class through the links in the Other fixed income products card like Deferred fixed annuities. Or, continue your fixed income education, ways to work with us or order monitoring through the Quick links card.
- In general, the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk, liquidity risk, call risk, and credit and default risks for both issuers and counterparties. Any fixed income security sold or redeemed prior to maturity may be subject to loss.
