Effect on Basis

In General. Each shareholder has an aggregate basis in Acquiring Fund shares received in the merger equal to the aggregate basis of that shareholder's Acquired Fund shares surrendered in the merger.

Average Basis Shareholders. For a shareholder using the average basis method, his/her basis immediately following the merger in a particular Acquiring Fund share received in the merger equals his/her aggregate basis in that class of shares (including the basis carried over from the Acquired Fund shares of the corresponding class surrendered in the merger) divided by his/her total number of shares owned of that class.

Non-Average Basis Shareholders.

For a shareholder who does not use the average basis method but had the same basis in each of his/her Acquired Fund shares of the same class immediately prior to the merger (i.e., because his/her Acquired Fund shares of that class were purchased at a single price in a single transaction), the basis of each Acquiring Fund:

- Initial Class share received is equal to 99.982203% of the basis of each Acquired Fund Initial Class share surrendered.
- Service Class share received is equal to 99.921462% of the basis of each Acquired Fund Service Class share surrendered.
- Service Class 2 share received is equal to 99.187653% of the basis of each Acquired Fund Service Class 2 share surrendered.
- Investor Class share received is equal to 100.142603% of the basis of each Acquired Fund Investor Class share surrendered.

A shareholder who did not have the same basis in each of his/her Acquired Fund shares of a particular class determines the basis of each of his/her Acquiring Fund shares received in accordance with Treas. Reg. section 1.358-2.

Shareholders should consult IRS Publication 550 and their tax advisors for more information.
