¹ This strategy may be appropriate for investors who are looking for long-term growth and exposure to international developed market stocks, and are concerned with the impact of taxes on their investment returns. This professionally managed account offers the following benefits:

### Professional Money Management
Fidelity Personal and Workplace Advisors LLC (FPWA), the investment manager for the strategy, has engaged its affiliate, Strategic Advisers LLC (Strategic Advisers), to provide discretionary portfolio management of your account. Strategic Advisers seeks to deliver index-like returns similar to, but with fewer stocks than, the Fidelity Developed ex North America Focus Index (Net).²

### Personal Ongoing Tax Management
Your account will be actively managed with the goal of enhancing your after-tax returns.

### A Personal Approach
You’ll receive a high level of service through ongoing communications, quarterly investment reviews on your account, and access to exclusive client content.
American depositary receipts (ADRs) are securities that represent shares of non-U.S. companies who want to list on an American exchange; each ADR represents a certain number of a company’s regular shares.

Exchange-traded products (ETPs) are securities that track an index, a commodity, bonds, or other financial instruments. ETPs can include exchange-traded funds, exchange-traded notes, unit investment trusts, closed-end funds, master limited partnerships, and certain grantor trusts.

Tax-smart (i.e., tax-sensitive) investing techniques are applied in managing taxable accounts (including “tax-loss harvesting”) on a limited basis, at the discretion of the portfolio manager primarily with respect to determining when assets in a client’s account should be bought or sold. As the discretionary portfolio manager, Strategic Advisers LLC (“Strategic Advisers”) may elect to sell assets in an account at any time. A client may have a gain or loss when assets are sold. There are no guarantees as to the effectiveness of the tax-smart investing techniques applied in serving to reduce or minimize a client’s overall tax liabilities, or as to the tax results that may be generated by a given transaction. Strategic Advisers does not currently invest in tax-deferred products, such as variable insurance products, or in tax-managed funds, but may do so in the future if it deems such to be appropriate for a client. Strategic Advisers does not actively manage for alternative minimum taxes; state or local taxes; foreign taxes on non-U.S. investments; federal tax rules applicable to entities; or estate, gift, or generation-skipping transfer taxes. Strategic Advisers relies on information provided by clients in an effort to provide tax-sensitive investment management, and does not offer tax advice. Except where Fidelity Personal Trust Company (FPTC) is serving as trustee, clients are responsible for all tax liabilities arising from transactions in their accounts, for the adequacy and accuracy of any positions taken on tax returns, for the actual filing of tax returns, and for the remittance of tax payments to taxing authorities.

Who is Strategic Advisers LLC?
Strategic Advisers, as the portfolio manager for this strategy, will initiate all trades for your account and oversee day-to-day management responsibilities. Strategic Advisers, a registered investment adviser and a Fidelity Investments company, has more than 30 years of discretionary money management experience and currently manages more than $660 billion in assets.*

How it works
Your account will be managed in pursuit of the long-term growth potential of international developed market stocks and enhanced after-tax returns through active tax management.

Investment Universe
Fidelity Developed ex North America Focus Index (Net)

Begin
The portfolio’s holdings are selected from an investment universe that reflects approximately 85% of the total available non-U.S. developed equity market.

Build
Each account is built to seek index-like returns with a subset of securities, primarily U.S.-traded American depositary receipts (ADRs),† and, as needed, exchange-traded products (ETPs).‡

Benefit
Clients may benefit from our tax-smart investing techniques such as tax-loss harvesting.

Potential Tax Savings

†American depositary receipts (ADRs) are securities that represent shares of non-U.S. companies who want to list on an American exchange; each ADR represents a certain number of a company’s regular shares.

‡Exchange-traded products (ETPs) are securities that track an index, a commodity, bonds, or other financial instruments. ETPs can include exchange-traded funds, exchange-traded notes, unit investment trusts, closed-end funds, master limited partnerships, and certain grantor trusts.

*As of June 30, 2021. Assets under management include only managed account assets.
HOW WE MANAGE YOUR ACCOUNT FOR TAXES

We are looking at your account throughout the year (not just at year-end) for opportunities to enhance your after-tax returns. When appropriate, we’ll apply one or more of our tax-smart investing techniques to help reduce the impact of taxes on your account.

TAX-SMART INVESTING TECHNIQUES

- Fund your account in a tax-efficient way using some of your existing securities as a start
- Harvest tax losses
- Transition your existing holdings
- Defer realizing short-term gains
- Manage tax lots
- Offset gains to save on taxes over time
- Avoid realizing short-term gains, which are taxed at a higher rate, when possible
- Select advantageous lots to sell and build a tax-efficient portfolio

Please ask a Fidelity representative for the Fidelity Strategic Disciplines Program Fundamentals for more information about the techniques highlighted.

PRICING

- Minimum investment: $100,000
- Annual advisory fee: from 0.20% to 0.65% based on your total assets invested

Keep in mind that investing involves risk. The value of your investment will fluctuate over time, and you may gain or lose money.

1Tax-smart (i.e., tax-sensitive) investing techniques, including tax-loss harvesting, are applied in managing certain taxable accounts on a limited basis, at the discretion of the portfolio manager, primarily with respect to determining when assets in a client's account should be bought or sold. Assets contributed may be sold for a taxable gain or loss at any time. There are no guarantees as to the effectiveness of the tax-smart investing techniques applied in serving to reduce or minimize a client's overall tax liabilities, or as to the tax results that may be generated by a given transaction.

2Stock markets are volatile and can fluctuate significantly in response to company, industry, political, regulatory, market, or economic developments. Investing in stock involves risks, including the loss of principal. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks.

3The Fidelity Developed ex North America Focus Index (Net) is a float-adjusted market capitalization–weighted index designed to reflect the performance of the developed international equity market, including large-capitalization stocks.

4Fidelity Strategic Disciplines clients must generally qualify for support from a dedicated Fidelity advisor, which is based on a variety of factors (for example, a client with at least $250,000 invested in eligible Fidelity account(s) would typically qualify). For details, review the Program Fundamentals available online or through a representative.
