NAVs shown are as of immediately prior to the merger. 
Merger Ratio is the number of Acquiring Fund shares received per one Acquired Fund share surrendered.

**Effect on Basis**

**In General.** Each shareholder has an aggregate basis in Acquiring Fund shares received in the merger equal to the aggregate basis of that shareholder's Acquired Fund shares surrendered in the merger.

**Average Basis Shareholders.** For a shareholder using the average basis method, his/her basis immediately following the merger in a particular Acquiring Fund share received in the merger equals his/her aggregate basis in all Acquiring Fund shares held immediately following the merger (including the basis carried over from the Acquired Fund shares surrendered in the merger) divided by his/her total number of Acquiring Fund shares owned.

**Non-Average Basis Shareholders.**

For a shareholder who does not use the average basis method but had the same basis in each of his/her Acquired Fund shares immediately prior to the merger (i.e., because his/her Acquired Fund shares were purchased at a single price in a single transaction), the basis of each Acquiring Fund Investor Class share received in exchange for:

- Acquired Fund Retail share is equal to 85.576141% of the basis in each Retail share surrendered.
- Acquired Fund Class A share is equal to 86.827112% of the basis in each Class A share surrendered.
- Acquired Fund Class C share is equal to 92.390446% of the basis in each Class C share surrendered.
- Acquired Fund Class M share is equal to 86.869199% of the basis in each Class M share surrendered.
- Acquired Fund Class I share is equal to 85.857840% of the basis in each Class I share surrendered.

A shareholder who did not have the same basis in each of his/her Acquired Fund shares determines the basis of each of his/her Acquiring Fund shares received in accordance with Treas. Reg. section 1.358-2.

Shareholders should consult IRS Publication 550 and their tax advisors for more information.
