

## 2018 Information for Nonresident Alien (NRA) Fidelity Fund Shareholders\*

Dear Fidelity Investor:

As an NRA shareholder, you may be entitled to claim a refund by filing IRS Form 1040-NR for the U.S. federal income tax withheld from your fund distributions that were attributable to interest-related dividends or to short-term capital gain dividends. A shareholder who is not a citizen or resident of the United States (an "NRA shareholder") is generally exempt from U.S. federal income tax on interest-related dividends and short-term capital gain dividends declared by a U.S. fund. The information in this letter, together with distribution details available in your Fidelity monthly or quarterly Investment Reports, may help you determine if you are eligible for a refund of U.S. federal income tax withheld on certain distributions from your Fidelity funds. Fidelity Funds account and Fidelity Portfolio Advisory Service® customers may alternatively consult their 2018 year-end Investment Report for their Fidelity fund distribution details. For further information, see IRS Publication 519, *U.S. Tax Guide for Aliens*. Consult your tax advisor, who is most familiar with your individual tax situation, on how to use the information in this letter.

Your 2018 monthly or quarterly Investment Reports list all the distributions you received for the period covered by each Investment Report, as well as the amount withheld from each distribution. For information concerning distributions from funds other than Fidelity funds you may own, please contact the appropriate fund company directly. The table on the pages that follow provides the percentage of the withholding on distributions that qualified as interest-related dividends or short-term capital gain dividends from each of your Fidelity funds.

The following example shows how an NRA shareholder who owned shares of Fidelity Asset Manager® 30% during 2018 would calculate the amount of tax withheld on his or her dividends and short-term capital gains, which might be eligible for a U.S. federal income tax refund. The two types of applicable 2018 distributions are listed in the table. Aggregating all the dividend distributions the shareholder received during the year as identified in the Investment Reports, the shareholder had a total of \$1,000 in taxes withheld. Similarly, the shareholder had \$50 in taxes withheld from the applicable short-term capital gain distribution. To calculate the potentially refundable portion of taxes withheld, the shareholder would multiply the amount of
