2019 Percentage of Income from U.S. Government Securities

Information for state tax reporting

We are sending this information to help you prepare your state income tax return. If you owned shares of any of the Fidelity funds listed in the table on the following pages during 2019, a portion of the dividends you earned may be exempt from your state's income or investment tax. Most states exempt the dividend income derived from a fund's investments in U.S. government securities.

The amount of each ordinary income distribution you received is reported by fund on your 1099 Tax Reporting Statement:

- For Fidelity brokerage accounts: in the Supplemental Information portion of your 2019 1099 Tax Statement, find the Details of 1099-DIV Transactions, Total Ordinary Dividends and Distributions Detail section.
- For Fidelity mutual fund accounts: find the Transaction Details Section of your 2019 year-end statement or your applicable monthly/quarterly account statement.

The following example shows how an investor who earned \$1,000 in ordinary dividends from Fidelity® Puritan® Fund would calculate the portion of ordinary dividends that may be exempt from state income or investment tax.

Fidelity® Puritan® Fund total ordinary dividends		Percentage of eligible income from U.S. government securities	=	Portion of total ordinary dividends that may be state tax-exempt
\$1,000	X	8.75%		\$87.50

In this example, \$87.50 may be exempt from state tax.

California, Connecticut, and New York exempt dividend income only when a fund has met a certain minimum investment in U.S. government securities. On the following pages, you will notice funds marked with an asterisk (*). These funds did not meet the minimum investment in U.S. government securities required to exempt the distribution from tax in California, Connecticut, and New York.

Your state tax return will contain specific instructions for reporting dividends. You may also wish to consult your tax advisor, who is most familiar with your circumstances and the laws of your home state.
