Part II  Organizational Action

14. Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action
   During its fiscal year ending 8/31/21, Fidelity Merrimack Street Trust: Fidelity Investment Grade Securitized ETF (the "Fund"), paid monthly income distributions to its shareholders. The dates and amounts of each of those distributions is shown on the attached schedule. The Fund has determined that its earnings and profits for its fiscal year ending 8/31/21 were insufficient to characterize a portion of those distributions as dividends under IRC section 301(c). As a result, a portion of each of those distributions has been characterized as return of capital.

15. Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis
   A portion of the distributions paid in March, April, May, June and July is treated as non-taxable return of capital and reduces a shareholder's adjusted tax basis in shares on which those distributions were received. To the extent the return of capital paid with respect to a share exceeds the shareholder's adjusted tax basis in that share, the excess will be recognized as capital gain. The portion of each distribution that is treated as a return of capital is shown on a per share basis in the "Total Non-Taxable Distribution" column on the attached schedule.

16. Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates
   The calculation of the return of capital amounts is based on the Fund's earnings and profits as-of its fiscal year ended 8/31/21. The adjusted tax basis of each of a shareholder's shares of the Fund is decreased by the return of capital (as described in box 15 above) received with respect to that share. To the extent the return of capital exceeds a shareholder's adjusted tax basis in a Fund share, such excess would be recognized as capital gain from the sale or exchange of property.
